Notice of Integrated Resource Plan Filing

Village of Morrisville Water & Light Department (MW&L) has submitted its 2019 Integrated Resource Plan (IRP) to the Vermont Public Utility Commission (PUC) for review. The IRP represents MW&L's plan for meeting the public's need for energy services safely, reliably and at the lowest present value life cycle cost. The plan includes an analysis of MW&L's energy needs and supply resources; its planned improvements to its electrical system, including vegetation management and environmental impacts; and the costs associated with both supply and grid resources. Utilities must file IRPs with the PUC and the Public Service Department at least every three years. MW&L's IRP can be accessed through Vermont Public Power Supply Authority's webpage: (<http://www.vppsa.com/>) by clicking on "Members" at the top of the page and then "Morrisville." It is also available for review through MW&L's webpage: https://www.mwlvt.com/s/Morrisville_2019_IRP_02242020.pdf. Additionally, the IRP can be viewed at the PUC's electronic filing and case management system, "ePUC," at <https://epuc.vermont.gov/> where you can search for [Case #20-0503-PET](#). Public comments may also be filed via ePUC.

Customers wishing to comment on MW&L's IRP, intervene in this proceeding, or request that the PUC hold a public hearing may do so directly into the case via ePUC, or by contacting the PUC at: puc.clerk@vermont.gov or 112 State Street, Montpelier, VT 05620-2701, or (802) 828-2358 by June 12, 2020. Please reference Case Number 20-0503-PET.
