Date Service is Needed : _____

General Policy Information

1. Plans of any proposed water/sewer service connection must be submitted with this application for review by MWL.
2. There are costs associated with connecting to the water and sewer system. MWL will review this application and provide a cost estimate for its work and any material if required.
3. The cost of all materials, labor and equipment incurred to tap the water main and run service to the building is the responsibility of the applicant
4. The cost of all materials, labor and equipment incurred to make the sewer connection to the main and run the service to the building is the responsibility of the applicant.
5. All estimated charges and connection fees shall be paid to MWL prior to the connection to the water or sewer system.
6. All connections to the water and sewer system will be inspected by MWL personnel prior to backfilling the trench.
7. The applicant shall provide a minimum two (2) day advanced notice to MWL for scheduling an inspection of the installation.
8. A water meter is required for all water connections. The water meter must be purchased through MWL and installed to MWL specifications. MWL utilizes remote radio read meters that require a transmitter be installed on the outside of the building. A MWL representative will provide an estimated cost for the metering equipment and approve the proposed meter location. MWL will inspect the installation.
9. I understand and agree that the water and /or sewer connection is subject to the requirements specified in the Village of Morrisville/Town of Morristown Wastewater Ordinance for the Sewer Service Market Area and Village of Morrisville standards and specification for construction.

Applicant Signature: _____ Date: _____

NOTE 1 : A Sewer Capacity Allocation Application also needs to be completed if you are requesting connection to the sewer system.

NOTE 2 : The property owner MUST apply with MWL Customer Service (802-888-3348) to establish a water/wastewater account in their name before the service is connected.
