

ELECTRIC VEHICLE REBATE

Get up to \$1,000 back on the purchase of an electric vehicle.

WHY GO ELECTRIC?

Electric vehicles reduce fossil fuel use and can save money on fuel and maintenance costs compared to conventional gasoline-powered vehicles.

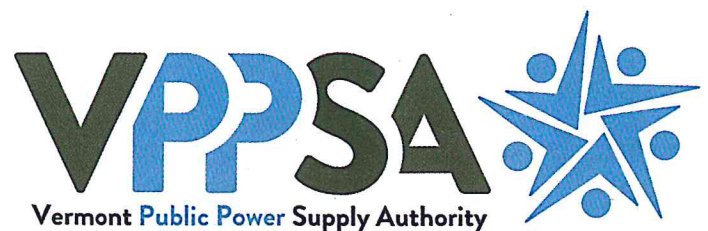

- Driving an electric vehicle is like paying \$1.50/gallon of gas.
- EVs are primarily powered by electricity instead of liquid fuels and produce no tailpipe emissions.

FOR MORE INFORMATION

Visit Drive Electric Vermont online at driveelectricvt.com for more information on:

- Electric vehicles
- EV dealers
- Charging station locations in Vermont

Your municipal electric utility is offering this incentive as part of our effort to meet Vermont's Renewable Energy Standard, which supports utility programs that help customers reduce fossil fuel use from heating and transportation.

ELECTRIC VEHICLE REBATE

This rebate is available only to customers of the following electric utilities: Barton Village, Village of Enosburg Falls, Hardwick Electric Department, Village of Jacksonville, Ludlow Electric Light Department, Lyndonville Electric Department, Morrisville Water and Light Department, Northfield Electric Department, Village of Orleans, and Swanton Village. Customers of these utilities are eligible for an \$800 rebate on the purchase or lease of a new electric vehicle or a \$400 rebate on the purchase or lease of a new plug-in hybrid.
