SKETCH OF SITE

There are costs associated with connecting to the water and sewer system. MWL will review this application to determine if the proposed connections are acceptable and provide a cost estimate for its work and the material required. Approval from MWL is needed prior to any connections to the system and MWL must inspect the connection and trench before any backfilling.

Applicant Signature: _____ Date: _____

Note: This is only an application to extend water and/or wastewater facilities to the property/building. You must apply at Customer Service to establish a water/wastewater account in your name before the service is connected.
